SECUREAV RELEASES GERMAN TRANSLATION OF AVIATORS' MODEL CODE OF CONDUCT

December 14, 2006 – SecureAv, a California organization, announces the release and immediate availability of a German translation of the *Aviators' Model Code of Conduct* (AMCC). Spearheaded by Timm Preusser, Ph.D., CFII, MCFI, and Martin Spitta, CPL, CFI, the German translation (*Verhaltenskodex Für Piloten*) presents broad guidance and recommendations to advance flight safety and responsible airmanship in the General Aviation community. The AMCC was created to assist pilots throughout the world. Danish, Chinese, French, Hebrew, and Spanish versions have already been released. Editorial review was provided by AOPA-Germany and COPA-Europe. The translation is available at <www.secureav.com/AMCC-Listings-Page.html>.

The Code of Conduct presents a vision of excellence in General Aviation within its seven sections: (1) General Responsibilities of Aviators; (2) Passengers and People on the Surface; (3) Training and Proficiency; (4) Security; (5) Environmental Issues; (6) Use of Technology; and (7) Advancement and Promotion of General Aviation. The AMCC is a “living document,” periodically updated to reflect changes in aviation practices and the aviation environment. Its *Commentary*, available at <<http://www.secureav.com/Commentary-Index.pdf>>, addresses selected issues within the AMCC to provide interpretive guidance and suggest effective ways to adopt the AMCC.

The Code of Conduct, together with supporting materials, is available as a free public service to the aviation community at <<http://www.secureav.com>>. The Code of Conduct's Permanent Editorial Board is presented at <<http://www.secureav.com/PEB.pdf>>. For more information about the Code of Conduct, contact <PEB@secureav.com>.
